SECTION 1: SUMMARY

In the second year of an ongoing partnership, The University of Southern California's Suzanne Dworak-Peck School of Social Work and Leonard D. Schaeffer Center for Health Policy & Economics (USC) and the Los Angeles Homeless Services Authority (LAHSA) collaborated on the design, implementation, and analysis of the 2018 Greater Los Angeles Homeless Count (HC18).

The HC18 is intended to provide point-in-time estimates of the homeless population in the Los Angeles Continuum of Care (CoC) geographic area, which includes all of Los Angeles county except the cities of Pasadena, Glendale, and Long Beach. It fulfills the Housing and Urban Development (HUD)-mandated Point-in-Time (PIT) Count to count and estimate demographic characteristics of persons experiencing literal homelessness – unsheltered and sheltered – during the last 10 days in January.

Estimates of the homeless population are extrapolated from data obtained from a PIT count of the unsheltered population, a demographic survey of unsheltered adults, a youth count and survey of unsheltered youth, and administrative data from the Homeless Management Information System (HMIS) covering the sheltered population.

The HC18 was designed to provide estimates for the Los Angeles CoC; the City of Los Angeles; eight Service Planning Areas (SPAs); the communities of Hollywood, Skid Row, and Venice; five Supervisorial Districts (SDs); and 15 City Council Districts (CDs).

SECTION 2: ROLES AND RESPONSIBILITIES

For the HC18, USC was contracted to provide methodology and process direction, design and select all required samples, execute the demographic survey of unsheltered adults, execute the youth count/survey of unsheltered youth, and produce survey estimates.

LAHSA was responsible for all other data collection tasks, which included conducting the PIT and shelter counts, convening an advisory board committee, designing the contents of survey questions and forms, and compiling the estimates for presentation.

SECTION 3: POINT-IN-TIME COUNT

Each January, LAHSA conducts the PIT Count in the CoC. The PIT Count is a visual-only tally of people experiencing unsheltered homelessness and the number of cars, vans, recreational vehicles (RVs), tents, and makeshift shelters assumed to be housing homeless individuals.

The HC18 PIT count of homeless adults was conducted in all 2,160[1] census tracts (CTs) of the CoC.[2]

[1] LAHSA identified 2,160 CTs in the Los Angeles CoC for 2017 Homeless Count, an increase from 2,155 CTs in the 2016 Homeless Count. CTs were added in 2017 based on boundary realignments determining the extent of the CoC.

[2] To prepare for the possibility that not all CTs could be covered, a randomly selected sample of the 2,160 CTs contained in the Los Angeles CoC was developed but at the end it was not used.

SECTION 4: DEMOGRAPHIC SURVEY

The purpose of the 2018 Demographic Survey (DS18) was two-fold:

1) To collect data on a sample of homeless adults to use in the estimation of unsheltered adult homeless characteristics across the CoC; the City of Los Angeles; eight SPAs; the communities of Hollywood, Skid Row, and Venice[3]; five SDs; and 15 CDs.
2) To determine the multiplier for the number of people living in the cars, vans, RVs, tents and makeshift shelters captured in the PIT Count.

A copy of the survey instrument can be found in Appendix A.

As a preliminary analysis, and after discussing LAHSA's concerns about accurate representation at finer geographic areas, USC ran a preliminary estimate of sample size for different levels of standard error and precision at multiple geographic levels – SPAs, SDs and CDs. A final decision was made to take CDs into account when defining geographic strata.

The sampling approach was kept similar to the approach used in the 2016 and 2017 Homeless Counts with an adjustment to the definition of geographic strata (refined to better cover geographic areas of interest).

A 5% significance error was used to calculate a target sample size of surveys and 2017 average population estimates were used to define the final CT sample size. The target sample size of surveys was used as a guide during the survey period.

4.1. Sample Selection

A two-stage stratified random sample was used for the DS18. In stage one, all CTs were allocated to different stratum and a random sample of CTs from each pre-defined strata was selected. In the second stage, selected CTs were covered by the survey team. Interviewers conducted surveys with any homeless person they could locate in a CT who agreed to the survey. Respondents were assumed to be selected at random from the homeless population in the CT.

CT sample selection probabilities were then used in the computation of analytic weights.

4.1.1. Strata Definition

The CoC area to be surveyed consisted of 2,160 CTs.

Using information from the 2017 Homeless Count (HC17) and demographic survey planning sessions on population size and hotspot designations received from LAHSA, each CT was allocated to one stratum within geographic and hotspot strata.

[3] The communities of Skid Row, Venice, and Hollywood were labeled SPA 9, SPA 10, and SPA 11, respectively.

Geographic Strata

Geographic strata were defined using CD and SPA designations.

CTs were grouped into SPAs:

1. Antelope Valley
2. San Fernando Valley
3. San Gabriel Valley
4. Metro
5. West
6. South
7. East
8. South Bay

CTs were also grouped into the 15 CDs plus a larger geographic area not incorporated as one of the 15 CDs.

In general, CDs are smaller than SPAs and most of them include a portion of two or three different SPAs.

The geographic stratum was then defined by the combination of CDs and SPAs.

Table 1. Geographic Strata

CDs	SPAs
Non LA	2, 3, 4, 5, 6, 7, 8
1	4, 6
2	2
3	2
4	2, 4, 5
5	2, 4, 5
6	2
7	2
8	6
9	4, 6
10	4, 5, 6
11	5
12	2
13	4
14	4
15	6, 8

[Note: Skid Row and Venice were covered with 100% probability and excluded from the strata definition above]

Hotspot Strata

Hotspot strata were defined by the following:

- Indicators identifying CTs as individual hotspots, vehicle hotspots, family hotspots, and non-hotspots. These categories constituted separate strata for sample selection. This information was used to determine assignment of CTs to each stratum.

- Historical data from HC17 on the number of individuals in each CT.

Assignment to hotspot strata was done using binary indicators for hotspot or non-hotspot categories provided by LAHSA.

A CT could only be allocated to one stratum for sampling purposes, so prioritization was established to assign CTs to mutually exclusive strata. The rules of assignment were:

a. CTs identified as containing a family hotspot were assigned to the family stratum.
b. Any remaining CTs identified as containing a vehicle or encampment hotspot were assigned to the vehicle stratum.
c. Any remaining CTs identified as containing an individual hotspot were assigned to the individual stratum.
d. All remaining CTs that were not identified as hotspots were assigned to a non-hotspot stratum.

Table 2 shows the count of hotspot tracts under each category before the priority rule to clear the overlap was applied.

Table 2. Number of CTs by Hotspot Indicator

	Not Fam HS		Fam HS	
Ind HS	Not Vehicle HS	Vehicle HS	Not Vehicle HS	Vehicle HS
No	1,153	294	13	10
Yes	318	324	6	27

Ind HS: Individual Hotspot Indicator
Fam HS: Family Hotspot Indicator
Vehicle HS: Vehicle/Encampment Hotspot Indicator

[Note that not all geographic locations contain every type of hotspot]

4.1.2. Sample Size

The total number of CTs to be sampled was defined using HC17 estimates. Using HC17 estimates, a 5% significance criteria was used to determine the HC18 sample size (in terms of surveys for each geographically defined area).

The target sample size (in terms of CTs to be sampled) was estimated in two steps. Each CT was assigned a stratum defined by the 15 CDs and 8 SPAs. When hotspot strata and geographic strata were combined, a total of 90 strata were defined (see Table 3). Note that hotspot stratum did not apply to Skid Row and Venice (SPAs 9 and 10), which were each represented with one stratum to be sampled 100% (all CTs selected). Family hotspot strata had the fewest CTs, whereas the majority of CTs in each SPA were assigned to the non-hotspot strata.

At this stage, 100% probability of selection was assigned to CTs in Skid Row and Venice (SPAs 9 and 10), and these CTs were not included in the Neyman allocation.

The first step was to estimate the number of census tracts to be sampled using the average number of individuals per census tract in each geographic stratum.

Once the total number of CTs to be sampled from each geographic stratum was defined, the second step was to use Neyman proportional allocation to define the final number of tracts to be sampled from each hotspot/geographic stratum. Neyman allocation is an optimal allocation method that maximizes the precision of survey estimates by minimizing the variance of the mean estimator. Using this method, we obtained more precise estimates by determining the number of CTs to sample within each geographic area proportional to the product of the number of CTs per SPA and the SPA standard deviation. Using this sampling method meant we sampled more CTs from SPAs with a larger number of CTs or larger variability in CT homeless populations to account for heterogeneity in the homeless population within and across SPAs.

The number of CTs to sample was determined using the following formula:

$$n_h = n^* \left(\frac{N_h \sigma_h}{\sum_{i=1}^{L} N_i \sigma_i} \right)$$

In this equation:
n_h is the number of CTs to be sampled from HS stratum h
n is the total number of CTs to be sampled from the target geographic area
N_h is the number of CTs in HS stratum h
σ_h is the population standard deviation in HS stratum h (using 2017 adult homeless estimates)
L is the total number of HS strata in the target geographic area
The final sample size for each stratum was defined using the Neyman allocation function from SAS 9.4 (Neyman option in PROC SURVEYSELECT).

4.1.3. Selection of CTs

The number of CTs in each stratum within SPAs are shown in Table 3, along with the number of sampled CTs allocated to each stratum. After determining the number of CTs to be included in the sample within each stratum, random sampling without replacement was used to draw the final sample of 483 CTs. SAS PROC SURVEYSELECT was used to select CTs at random without replacement. The randomly selected CTs were tagged for inclusion in the survey sample. Selection probabilities were automatically calculated for each area in SAS.

4.1.4. Sample of Individuals

The second stage of sampling for the DS18 was assumed to be a random selection of people experiencing homelessness within selected CTs.

Interviewers conducted surveys with any homeless person they could locate in a CT who agreed to participate in the survey. Respondents were assumed to be selected at random from the homeless population in the CT, and interviewers went to great lengths to locate homeless individuals in difficult terrain. Nonresponse and unapproachable individuals were recorded and factored into the final analytic weights.

4.2. Sample Weights

Sample weights were constructed for use with the DS18 data. Strata sample weights were calculated by taking the inverse of the probability of CT selection within each stratum. Several strata were assigned 100% probability of selection (see Table 3). Final weights were constructed during the data analysis process (see Section 8).

4.3. Conducting the Demographic Survey

The DS18 took place between December 11, 2017 and March 14, 2018 and covered 483 selected CTs across the CoC. A total of 5,060 surveys were completed during that time. Appendix B outlines the data collection protocols.

SECTION 5: YOUTH COUNT/SURVEY

The purpose of the 2018 Youth Survey (YS18) was to describe the youth (under age 25) homeless population in the CoC area and estimate its size. The survey is used to calculate population estimates of homeless youth across the CoC and within SPAs, CDs, and other geographies contained in the CoC. It also serves as a PIT count of youth.

A copy of the survey instrument can be found in Appendix C.

The youth count methodology follows the approach from the previous two years. A stratified random sample of CTs was selected from a list of CTs in the CoC, their geographic classification, the identification of hotspots from focus groups planning sessions, and the count from the previous year. The geographic stratum was defined using a combination of CDs and SPAs (for areas outside of CDs).

Similar to the demographic survey, the sample size was set based on a preliminary analysis of standard errors. The target was to get a probability sample with 5% significance level for the youth count at the CoC, the SPA/CD level, and hotspot level. For the youth survey the significance and precision levels target the main measure from the survey, the count of homeless youth.

In order to extract the sample, an additional strata level was added to divide CD/hotspot areas that cover more than one SPA, and the pre-identified sample size for that CD area was divided into SPA stratum proportionally. A stratified random sample of CTs were selected, were each CD/SPA separate geographic stratum, and additional stratum were defined by the identification of hotspots.

5.1. Sample Selection

5.1.1. Strata Definition

The first step was to define two sets of stratum, a geographic stratum and hotspot stratum.

Geographic strata in the YC18 was defined as in the DS18 (see Section 4.1).

Hotspot stratum was identified in regional meetings with providers and youth navigators designed to identify areas of high youth homeless concentration. LAHSA provided USC with results from these meeting, where each CT was tagged with one of the following:

- Access Point (AP): access center or drop-in site for youth present in the tract
- Focus Group Hotspot (FG): tract identified as an active location by a youth focus group

These categories constituted separate strata for sample selection. Following previous years counts, additional strata were defined using YC17 to identify historical hotspots (YC17 HS).

Table 4. Number of CTs by Hotspot Indicator

	Not FG HS		FG HS	
AP HS	Not YC17 HS	YC17 HS	Not YC17 HS	YC17 HS
No	1,809	19	278	33
Yes	12	9	0	0

AP HS: Access Point Hotspot Indicator (sampled with 100% certainty)
FG HS: Focus Group Hotspot Indicator
YC17 HS: Historical Hotspot Indicator

The remaining CTs not identified with these categories were assigned to the non-hotspot category. Hotspot strata were defined in order of priority (AP, FG, YC17 HS). Each SPA could have contained up to three hotspot strata, with the exception of SPAs 9 and 10, which were treated as single stratum and sampled with 100% probability.

5.1.2. Sample Size

The total number of CTs to be sampled was based on an estimate of tracts needed to reach a 5% significance level in the count of homeless youth and using the 2017 homeless youth count.

The approach to identify the number of tracts to sample from each stratum for the YC18 was the same used for the DS18 (see Section 4.1.2).

5.1.3. Selection of CTs and Count of Homeless Youth

After determining the number of CTs to be sampled from each stratum, a random sampling without replacement was used to draw the final sample of 445 CTs. SAS PROC SURVEYSELECT was used to select CTs at random without replacement. The randomly selected CTs were tagged for inclusion in the survey sample. Selection probabilities were automatically calculated for each area by SAS.

5.2. Sample Weights

Sample weights were constructed for use with the YS18 data. Strata sample weights were calculated by taking the inverse of the probability of CT selection within each stratum. Several strata were assigned 100% probability of selection. Final weights were constructed during the data analysis process (see Section 8).

5.3. Conducting the Youth Count

The YC18 took place between January 22 and 31, 2018 and covered 445 selected CTs across the CoC. A total of 1,335 surveys were completed during that time. Appendix D outlines the data collection protocols.

Youth Count efforts employed two types of location-based data collection strategies: 1) street survey teams and 2) access points.

1) Street survey teams: Teams assigned and coordinated to conduct surveys in selected CTs.
2) Access points: AP administrators agreed to provide staffing resources to assist in survey data collection ranging from two to ten days. Note that the entire CT in which the APs are located were also covered geographically by street survey teams.

Youth Count survey collection happened in two time frames: 1) blitz days and 2) extended time periods.

1) Blitz Days: In five of the eight SPAs, USC supported a blitz day model in which youth homeless service provider organizations dedicated resources (e.g. staff, volunteers, transportation) to canvas the geography of the selected CTs and conduct as many surveys with homeless youth as possible on a predetermined day (or days).
2) Extended Time Periods: As youth homeless service providers did not have the capacity to canvas all CTs included as part of the youth count sample during blitz days, street survey teams covered any remaining CTs during an extended time period.

Appendix D outlines the data collection protocols with more detail.

SECTION 6: PRODUCING ESTIMATES FOR 2018 SHELTER COUNT

6.1. Overview of Point-in-Time Shelter Count

Shelter count estimates were generated using the PIT shelter count. LAHSA conducted a PIT shelter count that is a 100% enumeration of all shelters in the CoC; therefore, there is no sampling or sampling error. The shelter PIT count provides the raw number of homeless individuals living in the following shelter types: emergency shelters (ES), transitional housing (TH), and safe havens (SH), including those receiving vouchers for hotels or motels provided by these shelters. For HC18, 12,385 individuals and 8,036 households were counted during the shelter PIT count.

6.2. Homeless Management Information System Data

Subpopulation and demographic estimates were estimated using HMIS data. Complete HMIS records from December 1, 2017 to December 31, 2017[4] with demographic characteristics were used to derive the distribution of demographic and subpopulation characteristics for the sheltered homeless population. Following prior years, HMIS data were assumed to be a complete enumeration of the sheltered population; therefore, additional weighting was not required to generate demographic and subpopulation estimates.[5] After deduplication[6] and screening for those using shelter services in December, 9,527 individuals in 7,780 households were used for analysis.

6.3. Data Analysis

After deduplication and screening for December shelter use, demographic characteristics and subpopulation estimates were generated by estimating the proportion within the HMIS data for each type of shelter (ES, TH, SH) and household type (i.e., individuals, adult and TAY families, and veterans). This proportion was then applied to the analogous PIT shelter household and individual counts, by household and shelter type, to obtain their characteristics (see Appendix E).

---

[4] HMIS data were extracted based on entry, exit, and service dates. Note that program entry, update, exit, and end dates were used to verify that individuals were actually sheltered in December 2017. For emergency shelter records only, bed service dates were also referenced. For records with missing program exit or end dates, a cut-off criteria using program entry and update dates was used to identify relevant records. For transitional housing and safe haven records, only records with program entry or update dates within 2 years of December 2017 were included. For emergency shelter records, only records with program entry, bed, or update dates within 180 days of December 2017 were included.

[5] Note that some shelters do not report to HMIS either because they do not receive funding from LAHSA or for confidentiality purposes (domestic violence (DV) shelters); however, LAHSA collects count data separately from these shelters to include in the shelter PIT count. Therefore, the HMIS data are a total enumeration of all shelters that contribute to the HMIS system. By applying the HMIS data to the non-HMIS providers and DV shelters, we implicitly assumed that the distribution of characteristics in the HMIS shelters were the same as those in the non-HMIS and DV shelters. Also note veterans are overrepresented in the HMIS population; however, this only poses a problem if the characteristics of veteran families in the HMIS data are different compared to non-HMIS veteran providers.

[6] Note that several duplicates occurred in the HMIS data, partially stemming from what appeared to be individuals moving from shelter to shelter. Our deduplication process used birthdate, gender, ethnicity, race, and veteran status to eliminate most duplicates, but for households wherein individuals appeared across multiple census tracts, gender and birthdate were used to identify further duplicates.

Because the CoC is large and diverse, the subpopulation estimates were applied at the SPA level to SPA-specific counts, and then summed to get the CoC result. For example, if we wanted to estimate the number of sheltered adult women in households without children, we would begin with the shelter PIT count for all individuals in households without children by shelter type (ES, TH, SH) and by SPA. We then would estimate the proportion of women (and other genders) in individual households from each shelter type for each SPA using the HMIS demographic data. We then apply the estimated proportions to the counts by household type, shelter type, and SPA to obtain estimated counts of women in households without children. To estimate the total number of women in the CoC, we sum the estimated counts across household type, shelter type, and SPA. In general, total CoC estimates of subpopulations were generated by first summing the counts, estimating the proportions and applying them to the counts, and then summing across all shelter and household types, and SPA. See Appendix F for the HC18 shelter count results.

We used SAS version 9.4 (TS1M3), a statistical software package for these estimations.

SECTION 7: PRODUCING ESTIMATES FOR 2018 UNSHELTERED HOMELESS COUNT

7.1. Unsheltered Adult Count

The unsheltered adult count (street) estimates were also generated from two distinct sets of data: the PIT street count and the demographic survey. Because the PIT street count was a 100% enumeration of all CTs, these data provide the total population counts for all individuals observed sleeping outside and all cars, vans, RVs, tents, and make-shift shelters. The counts for individuals on the street are provided by estimated age category (under 18, 18 to 24, and over 24), with families counted separately from individuals. The unsheltered adult analysis includes the counts of individuals 25 and over on the street, family units and member counts, vehicles, tents, and make-shift shelters. Each individual, family unit, vehicle, tent, and make-shift shelter is considered a household. This year, 10,747 individuals, 38 family units with 118 members, and 14,987 uninhabitable dwellings were counted during the unsheltered PIT count.

To estimate the number of homeless individuals classified within each of the desired demographic and subpopulation categories, USC administered a survey to a sample of the unsheltered adult homeless population (see Section 4 for information on the survey design). After deduplication, 4,821 eligible[7] surveys, each representing a household, reporting on 5,193 individuals, were used to estimate demographic and subpopulation estimates. A methodology like the one used for the shelter count was employed to estimate the proportion within each household type (adults with children, adults without children, veterans without children, and veterans with children) with specific demographic and subpopulation characteristics. These proportions were then applied to their respective PIT population totals (see Appendix E). The proportions and their application were done by SPA and summed across SPAs to derive the estimated subpopulation counts for the CoC.

We used weights to estimate proportions from the survey data to account for the sampling method. Sample weights were calculated as the inverse of the probability of CT selection within

[7] Eligibility was determined by age and housing status.

each stratum (see Section 4). The sample weights were adjusted for non-response and post-stratified to the household PIT count[8]. All demographic and subpopulation estimate standard errors were adjusted for the survey sampling design, using PROC SURVEYMEANS in SAS.

7.2. Unsheltered Youth Count

In comparison to unsheltered adults, unsheltered homeless youth are harder to measure because they are a population that may not appear homeless or are often located in inconspicuous areas. Therefore, a sampling enumeration framework was used to estimate the unsheltered youth count for youth-headed families, unaccompanied TAY (aged 18–24), and minors. Specifically, 1,335[9] youth surveys were collected. After deduplication, 776 eligible[10] youth surveys reporting 793 individuals were used to estimate the youth street count. Total, demographic, and subpopulation counts were calculated from the youth surveys by household type (i.e., unaccompanied and parenting youth) using a similar method to the unsheltered adult count (see Appendix E). The main difference in the methodology between the youth and adult unsheltered counts is that the total number of homeless unsheltered youth is an estimated number derived from the weighted sum of the number of youth in each youth household interviewed for the survey,[11] which means that the sampling weights played a greater role in determining the number of unsheltered homeless youth.

Youth sampling weights were calculated as the inverse of the probability of selection (see Section 5). The sampling weight was then adjusted for unit nonresponse using similar methods to those used for the adult surveys, i.e., using a nearest neighbor approach to distribute non-responding individuals' weights based on interviewer-perceived characteristics. Unlike the adult street count, the youth PIT count used a sampling enumeration; therefore, weights were not scaled to actual population counts. Specifically, each individual identified in the survey, i.e., the respondent and household members, was multiplied by the non-response adjusted sample weight, which approximates the total number of people in the youth population that the survey respondent represented. The total youth homeless population was calculated by summing these products.

---

[8] We collected interviewer-perceived age, gender, race, ethnicity, and presence of serious mental illness, physical disability, or substance abuse for all potential respondents. Non-response (NR) was observed if the subject was not approached, refused or declined to give consent, or did not provide eligibility information (age and housing status). For each point of non-response, we distributed the weight of NR individuals to responding ones using a nearest neighbor approach. Based on predicted values from logistic regressions of response on the perceived characteristics, we distributed the weight for each NR individual to those with similar predicted values. We then post-stratified the weights of the eligible respondents to the number of households observed in the PIT count (individuals, family units, vehicles, tents, and make-shift shelters) by stratum.

[9] Two access points in Hollywood conducted a couch surfing pilot. The pilot continued the interview for youth ineligible due to housing status, and added a few questions relevant to this group. The ineligible surveys among the 1,335 include the couch pilot interviews. The couch pilot interviews were not eligible to receive weights distributed from non-respondents.

[10] Eligibility was determined by age (respondent must be less than 25 years old and without anyone 25 or older in the household) and housing status.

[11] Each youth interview represents a youth household.

Specifically,

$$Y = \sum_{i=1}^{n} P_{is} * W_s, \text{ and}$$
$$P_{is} = R_{is} + h_{is}$$

where Y is the total youth estimate; P_{is} is the size of household *i*, including respondent R_i, with household members h_i, in strata s; and W_s is the nonresponse adjusted weight W for strata s. The total estimated unsheltered youth population, summed over all strata, is 1,481. The survey was also used to estimate subpopulation proportions by household type and SPA, similar to the method used for the unsheltered adults. The standard error for the estimated counts and subpopulations were adjusted for the survey sampling design, using PROC SURVEYMEANS in SAS.

7.3. Uninhabitable Dwelling Conversion Factors

The number of dwellings not meant for human habitation were counted during the adult PIT street count and used to estimate the number of individuals living within these types of dwellings, which include cars, vans, RVs, tents, and makeshift shelters. Following the methodology from HC17, dwelling conversion factors were calculated from a question in the adult demographic street survey that asked respondents to provide the number of people[12] they lived with in any of the uninhabitable dwelling types during the past six months. Distinct conversion factors were calculated for each type of dwelling by taking the weighted average of the responses by family type (i.e., individual and family). In other words, separate conversion factors were calculated for individuals and households with children for each type of dwelling, resulting in 10 conversion factors (see Table 6 for the conversion factors applied to the dwelling PIT counts and the proportion of individuals and families living in each of the dwelling types). We found that 6.24%, 2.82%, 4.15%, 2.08%, and 1.51% of individuals living in cars, vans, RVs or campers, tents, and makeshift shelters, respectively, were members of families. The conversion factors were then applied to the raw PIT street counts for the various dwelling types. As in prior homeless counts, we did not estimate the number of youth living in uninhabitable dwellings.

Table 6. Proportion of individuals and families living in each dwelling types

Type	Dwelling Type	*N*	Conv. Factor	Proportion of Total Living in Dwelling
Individuals	Car	763	1.528	93.76%
	Van	371	1.605	97.18%
	RV/camper	393	1.762	95.85%
	Tent	1,833	1.500	97.92%
	Makeshift shelter	909	1.664	98.49%
Families	Car	68	2.978	6.24%
	Van	13	2.418	2.82%
	RV/camper	18	3.426	4.15%
	Tent	34	2.766	2.08%
	Makeshift shelter	15	2.467	1.51%

[12] Note that this number was top coded to a maximum of 10 people to control for outliers.

7.4. Annualized Estimates

Consistent with HC16 and HC17, we used a formula modified from Burt and Wilkins (2005) to calculate the annualized estimates. Specifically, Burt and Wilkins (2005) asserted that annualized estimates in an area should be calculated as:

$$Annual\ Estimate = A + ((B * 51) * (1 - C))$$

where:
A = PIT count of currently homeless (CH) people, including adults and children
B = Number of CH adults and children who (1) became homeless during the last 7 days, whether for the first time or not, or (2) were already homeless but just entered the boundaries of the community during the past 7 days
C = Proportion of CH adults and children in A who had a previous homeless episode during the past 12 months

However, this formula does not account for the calculation of estimates by subpopulation. To account for subpopulation estimates, following HC17, we revised Burt and Wilkins' (2005) formula to the following equation for subgroup g:

$$\text{Annual Estimate}_g = PP_j * [A_g(1 + ((S_g * 51) * (1 - C_g))]$$

where:
A_g = PIT count for subgroup g at the CoC level
S_g = Proportion of homeless individuals during the last 7 days, or homeless individuals who entered the area during the past 7 days for subgroup g at the CoC level
C_g = Proportion of individuals who had a previous homeless spell in the past 12 months[13] for subgroup g at the CoC level
PP_j = Ratio of jurisdiction j's total estimated PIT count relative to the estimated CoC population

As an illustration, we calculated the following CoC annualized estimates for the following subgroup g:

Table 7. Annualized Estimates by Subgroup

Subgroup (g)	A_g	S_g	C_g	$Annualized_g$
Total	49,955			**101,914**
Sheltered adults	10,702	0.0281	0.2460	22,272
Sheltered youth	1,683	0.0230	0.2313	3,202
Unsheltered adults	36,089	0.0194	0.0558	69,807
Unsheltered youth	1,481	0.0790	0.1370	6,633

[13] In the HMIS data for the sheltered population, while there was information on the number of homeless spells in the last three years, there was no information for the past year. We adjust the percentage homeless more than once in the past three years for the shelter population by the ratio of the one year to three year measure taken from the data in the youth and adult demographic surveys. The percent homeless more than once in the past three years was 31.2% and 11.1% for youth and adults, respectively. The adjustments based on the surveys were 44.0% and 50.3% for youth and adults.

This method takes into consideration the proportion of newly homeless individuals each week (S) and assumes that this flow (proportion) of newly homeless is constant each week of the year, except for the week of the PIT count, which is why it was multiplied by 51 weeks. This number was then adjusted for duplicates by multiplying it by the proportion of people who had not been previously homeless in the past year (1-C). This helped to ensure that this proportion represented only participants who had new spells of homelessness or were new to the area. The 52nd week of the year was captured by the current homeless count, represented by the PIT count (A). It was also assumed that this number represented the stock of people experiencing homelessness in a week. Therefore, to determine the number of newly homeless individuals in the remaining 51 weeks of the year, this number was multiplied by 51 weeks and adjusted by the duplicate adjusted flow (proportion) of newly homeless individuals as previously described. All estimated proportions for the unsheltered were weighted to generate population estimates.

It should be noted that because estimates were unstable at jurisdiction levels smaller than the CoC, we used a proportional allocation. Therefore, to allocate annualized estimates to jurisdictions smaller than the CoC, the proportion of the jurisdiction total estimated PIT count relative to that of the CoC was applied to the CoC annualized estimate.

7.5. Subpopulation Estimates and SE

Standard errors were calculated to determine the precision of the estimates. Standard errors were calculated taking into consideration the sampling method and the complex interactions required to calculate the estimates. Standard errors were estimated using Taylor-linearized variance estimation. Just as in previous years, the standard error calculations assumed the shelter counts were measured without error and the dwelling multipliers were constant; therefore, they were assumed to contain no error. A breakdown of the standard error calculations is as follows:

1. If the estimate was derived by multiplying a count (N) by an estimated proportion (pp), for a particular subpopulation group (g), then the standard error was calculated as:

$$Se_g = N^* se_{g,pp}$$

In this equation, $se_{g,pp}$ is the standard error of the proportion for subpopulation g. Note that for adult street count estimates, individuals and families were estimated separately. All individuals were assumed to be aged or 25 or older; therefore, no measurement error existed (i.e., we did not have to estimate percentage age categories for this group). However, for households with children, separate counts were calculated for individuals under age 18, TAY between the ages of 18 and 24, and members aged 25 or older. Because these age percentages had to be estimated from the demographic survey, they were estimated with error. Therefore, standard errors were calculated as previously described.

2. If the estimate was derived from an estimated count (n) multiplied by an estimated proportion (pp) for a particular subgroup (i), then the standard error was calculated as:

$$se_g = \sqrt{se_n^2 * se_{g,pp}^2 + pp_g^2 * n^2 * \left(\left[\frac{se_{g,pp}^2}{pp_g^2}\right] + \left[\frac{se_n^2}{n^2}\right]\right)}$$

Notice that if there was no standard error for the count, this equation reduces to the prior equation.

3. If the estimate was derived by summing across samples (e.g., unsheltered female youth plus unsheltered female adults) and data sources (e.g., sheltered and unsheltered women) then the standard errors were calculated as simply the square root of the sum of the squared standard errors.

7.6. Postproduction Adjustments for Totals

To ensure that all geographical subunits added up to the CoC totals, we scaled the SD and the LA City / County estimates proportionally to the CoC totals, and the CD estimates proportionally to the LA City totals. For example, we took the ratio of the CoC population to the total estimated SD estimates and multiplied all of the SD estimates by this factor so that when summed they would total the CoC population. Mathematically, this adjustment was calculated as follows:

$$D_j = \frac{P}{P_j}$$

where D_j is the adjustment factor for geography (SD, City/County, or CD) j, P is the estimate for the total CoC or LA City homeless population, and P_j is the total population estimate for geography j. We also applied this adjustment to the standard errors reported in the appendices. Note that we estimated subpopulations by SPA and summed over all SPAs to arrive at CoC estimates, so no adjustments were needed for SPAs.

SECTION 8: PRODUCING OVERALL ESTIMATES

Following the methodology described in Sections 6 and 7, estimates for the sheltered count and unsheltered count were generated by age and household type for various geographical levels (CoC, SPA, SD, and CD) and subpopulations. Once estimates were derived for each shelter–age and street–age combination by household type separately, we summed the shelter–age–household and street–age–household combinations to find the total count of homeless individuals for each of the various demographic and subpopulation categories of interest. Note that to avoid rounding errors and ensure all estimates added up to the total, we had to estimate prevalence rates of demographic and subpopulation categories separately for each shelter–age–household and street–age–household combination and then sum all of the outcomes.

Drop-In Center Survey?

- ○ Yes
- ○ No

Please fill this section out based on your perception of the following characteristics of the potential respondent.

Perceived Age

- ○ Under 18
- ○ 18-24
- ○ 25-54
- ○ 55-61
- ○ 62 and over

Perceived Gender

- ○ Male
- ○ Female
- ○ Transgender male to female
- ○ Transgender female to male
- ○ Gender non-conforming

Perceived Ethnicity

- ○ Hispanic or Latino
- ○ Non-Hispanic or Latino

Perceived Race

- ○ American Indian / Alaskan Native
- ○ Asian
- ○ Black / African-American
- ○ Native Hawaiian / Other Pacific Islander
- ○ White
- ○ Multi-Racial / Other

Do you observe/ detect signs of the following?

- ❑ Serious physical health condition
- ❑ Mental illness
- ❑ Alcohol or drug abuse
- ❑ No observations

Approached?

- ○ Yes, proceed with survey

2018 Homeless Count Demographic Survey

Los Angeles Homeless Services Authority

Interviewer Instructions: *Any text that is* **bold** *should be read aloud to the survey respondent. Directions and prompts, along with additional information for clarification are included in italics. Directions on question logic, such as skipping questions, is in red. Please skip questions only when directed by these prompts. Single choice responses are indicated by bubbles, while multiple selection responses are indicated by check boxes. The Staff Use Only section is for the interviewer to fill out after the survey has been completed.*

Before we begin, I want to remind you that this interview is completely voluntary and your answers will be kept confidential. If we should come to any questions you don't want to answer, just let me know and we will go on to the next question. We are interested in the opinions and living conditions of different people throughout Los Angeles County. I will ask questions about your experience with housing, services, and some things about yourself. I think you'll find the questions interesting and you'll want to give them careful thought.

If you qualify for survey participation, you will receive a $5 food card for your time. The survey will take around 10-15 minutes. After eligibility is determined, your responses to the survey questions will not affect your eligibility to receive the food card.

Do you understand the purpose of the survey, and that your answers will be kept confidential?

- ○ Yes, *Continue with the Demographic Survey*
- ○ No, *Please re-read the introduction and confidentiality statement one more time before going to next participant.*

Are you over the age of 24?

- ○ Yes — *Continue with the Demographic Survey.*
- ○ No — *Please administer the Youth Survey if you are in a Youth Tract.*

1. Have you received a food card after taking a survey in the past two months?

- ○ Yes
- ○ No

If yes, thank them for their time and continue to the next person.

2. This question determines if you will be eligible to take the complete survey. Where have you spent most of your nights in the last 30 days? *Wait for response, then select the choice closest to their answer. If asked to clarify, ask, "Have you spent more than two weeks out of the past month in the same place? If so, where was that?"*

○ Apartment or home	○ Street, sidewalk, or alley	○ Car or truck
○ Emergency shelter	○ Bus or train stop/ station, transit center or airport	○ Van
○ Foster care or group home	○ Campground or woods	○ RV or camper
○ Hospital, substance abuse or psychiatric treatment facility	○ Park, beach, or riverbed	○ Outdoor encampment or tent
○ Hotel or motel	○ Under bridge or overpass	○ On a bus or train
○ Jail or prison	○ Other outdoor location	○ Unconverted garage, attic, or basement
○ Safe haven	○ Abandoned building	○ Other makeshift shelter not meant for human habitation
○ Transitional housing	○ Parking lot (Surface)	
○ Youth shelter	○ Parking structure	
○ Declined		
○ Don't know		

3. You told me where you had spent the most nights in the past 30 days. Where did you spend last night? *Wait for response, then select the choice closest to their answer.*

○ Apartment or home	○ Street, sidewalk, or alley	○ Car or truck
○ Emergency shelter	○ Bus or train stop/ station, transit center or airport	○ Van
○ Foster care or group home	○ Campground or woods	○ RV or camper
○ Hospital, substance abuse or psychiatric treatment facility	○ Park, beach, or riverbed	○ Outdoor encampment or tent
○ Hotel or motel	○ Under bridge or overpass	○ On a bus or train
○ Jail or prison	○ Other outdoor location	○ Unconverted garage, attic, or basement
○ Safe haven	○ Abandoned building	○ Other makeshift shelter not meant for human habitation
○ Transitional housing	○ Parking lot (Surface)	○ Don't know
○ Youth shelter	○ Parking structure	○ **Same as previous response**
	○ Declined	

4. What city or community were you sleeping in last night? *If the answer is LA, Los Angeles (City), please ask: "What neighborhood." Refer to your LA Cities and Communities Cheat Sheet for a list of communities and cities in Los Angeles County. If outside of LA County, write in "outside of LA County."*

○ **Same as survey location**

If any answer in the RED BOX in Question 2 is selected, say **"I'm sorry, you do not qualify for the Demographic Survey. Thank you for your time."** Then skip to FOR STAFF ONLY (page 14). If any other choice is selected, continue below.

You are eligible to complete the Survey. First, I'm going to ask you some questions about you and your personal experiences.

5. What are your initials? *Enter first and last.*

6. What is your date of birth?

Month	Day	Year

7. Is this the first time you have been homeless?

- ○ Yes
- ○ No
- ○ Declined
- ○ Don't know

If answer to Question 7 is Yes, skip to Question 9.

8. How old were you the FIRST TIME you were homeless?

9. How long have you been homeless THIS TIME?

Day(s)	
Week(s)	
Month(s)	
Year(s)	

10. IN THE PAST 6 MONTHS, have you lived in any of the following situations? *List each category below, and check the appropriate box. If they have not lived in the situation, do not check the box. Note: a makeshift shelter is a structure made of available materials that is not meant for human habitation.*

- ❑ Have you lived in a Car?
- ❑ Have you lived in a Van?
- ❑ Have you lived in a RV/Camper?
- ❑ Have you lived in a Tent?
- ❑ Have you lived in a Makeshift Shelter?
- ❑ None of the Above
- ❑ Declined
- ❑ Don't Know

11. In each of the following situations, can you tell me how many other people lived with you, NOT including yourself? *Ask only for the cases you selected in Question 10. Leave text boxes blank if respondent does not know or declines to answer. If the respondent lived alone, write in 0 (zero).*

Car	
Van	
RV/ Camper	
Tent	
Makeshift Shelter	

12. IN THE PAST YEAR, including this time, how many separate times have you experienced homelessness, on the street, in a vehicle or in shelters? *E.g., if the respondent has been housed once in the past year and they were homeless before and after, two separate episodes or experiences of homelessness took place.*

- ○ 1 time
- ○ 2 to 3 times
- ○ 4 or more times
- ○ Declined
- ○ Don't know

If the response to Question 9 was 1 year or greater, select 1 time and continue to Question 13.

13. IN THE PAST THREE YEARS, what about the number of separate times you experienced homelessness, on the street, in a vehicle or in shelters?

- ○ 1 time
- ○ 2 to 3 times
- ○ 4 or more times
- ○ Declined
- ○ Don't know

If the response to Question 9 was 3 years or greater, select 1 time and continue to Question 15.

If 4 or more times is NOT selected, continue to Question 15 on the next page.

14. IN THE PAST THREE YEARS, have you stayed in shelters or on the streets for longer than A YEAR in total?

- ○ Yes
- ○ No
- ○ Declined
- ○ Don't know

15. What gender do you identify with? *Wait for response and choose one answer. Read each category if response given is not listed.*

- ○ Male
- ○ Female
- ○ Gender non-conforming
- ○ Declined
- ○ Don't know

16. Do you identify as transgender?

- ○ Yes
- ○ No
- ○ Declined
- ○ Don't know

17. Which of the following best represents your sexual orientation? *Read each category and choose one answer.*

- ○ Straight
- ○ Gay
- ○ Lesbian
- ○ Bisexual
- ○ Unsure/ Questioning
- ○ Declined
- ○ Don't know

18. Do you identify as Hispanic or Latino? *If yes, read each category that starts with "Yes" and choose all that apply.*

- ❑ No, not of Hispanic, Latino, or Spanish origin
- ❑ Yes, Mexican, Mexican American, Chicano
- ❑ Yes, Puerto Rican
- ❑ Yes, Cuban
- ❑ Yes, another Hispanic, Latino, or Spanish origin (specify): _____
- ❑ Declined
- ❑ Don't know

19. What race do you identify with? Choose all that apply. *Wait for response and choose one answer. Read each category if response is not listed. If response is "Hispanic" or "Latino" select "Some other race (specify)" and write in "HL"*

- ❑ White
- ❑ Black or African-American
- ❑ American Indian or Alaska Native (Specify enrolled or principal tribe): _____
- ❑ Asian Indian
- ❑ Chinese
- ❑ Filipino
- ❑ Japanese
- ❑ Korean
- ❑ Vietnamese
- ❑ Native Hawaiian
- ❑ Guamanian or Chamorro
- ❑ Samoan
- ❑ Other Asian (specify): _____
- ❑ Other Pacific Islander (specify): _____
- ❑ Some other race (specify): _____
- ❑ Declined
- ❑ Don't know

20. Have you served on ACTIVE DUTY in the U.S. Armed forces (Army, Air force, Navy, Marine Corps, or Coast Guard?)

- ○ Yes
- ○ No
- ○ Declined
- ○ Don't know

21. Were you called into ACTIVE DUTY as a member of the National Guard or as a reservist?

- ○ Yes
- ○ No
- ○ Declined
- ○ Don't know

If answer to either Question 20 or Question 21 is Yes, complete Questions 22 and 23. Otherwise, skip to the next prompt.

22. What is your discharge status? *If none of the below answers are given, select Unverified.*

- ❍ Honorable
- ❍ General under honorable conditions
- ❍ Under other than honorable conditions (OTH)
- ❍ Bad Conduct
- ❍ Dishonorable
- ❍ Uncharacterized
- ❍ **Unverified**
- ❍ Declined
- ❍ Don't know

If Unverified is selected for Question 21, skip to the next prompt.

23. Which years or in which theater of war did you serve? *Wait for response and choose ALL that apply.*

- ❑ World War II (1940-1947)
- ❑ Between WWII and Korean War (1947 - 1950)
- ❑ Korean War (1950 - 1955)
- ❑ Between Korean War and Vietnam (1955 - 1964)
- ❑ Vietnam (1964 - 1975)
- ❑ Post-Vietnam (1975 - 1991)
- ❑ Persian Gulf (1991 – 2001)
- ❑ Afghanistan (2001 - Present)
- ❑ Iraq - Operation Iraqi Freedom or Operation New Dawn (2003 - 2011)
- ❑ Declined
- ❑ Don't know

Now I'm going to ask you some questions about people who live with you. Depending on how many people you live with and who they are, I may ask additional questions about them.

24. NOT including yourself, how many adults and children are currently living with you in your household? *Only fill in answers if the person is living with at least one other person.*

Adults over 24	
Adults 18 to 24	
Children under 18	

The next section is for families that include at least one adult over 18, **and one child under 18 years of age**. If the respondent does not indicate that they live with at least one child under the age of 18, **skip to Page 11**.

Thank you again. Now I'm going to ask some personal questions about the people you live with. I'll refer to them by the initial(s) or nickname(s) you give me. As a reminder, all answers will be kept confidential. You will receive an additional $10 in compensation for your family.

What are the initials or a nickname of other people in your household from oldest to youngest? *Fill in the initials of each family member in the boxes below. Complete the responses in each column for each family member.*					
Question	**Person 2**	**Person 3**	**Person 4**	**Person 5**	**Person 6**
25. What are the initials or a nickname of other people in your household from oldest to youngest?					
Next I'm going to ask some questions about the people you live with. I'm going to refer to them by the initial(s) or nickname(s) you gave me. *Refer to the person by initials or by nick name provided above. Finish all questions for each person before continuing to the next family member.*					
26. How is [initials] related to you?	○ Child ○ Spouse ○ Other Family ○ Non-married partner ○ Other/Non-family	○ Child ○ Spouse ○ Other Family ○ Non-married partner ○ Other/Non-family	○ Child ○ Spouse ○ Other Family ○ Non-married partner ○ Other/Non-family	○ Child ○ Spouse ○ Other Family ○ Non-married partner ○ Other/Non-family	○ Child ○ Spouse ○ Other Family ○ Non-married partner ○ Other/Non-family
27. How old is [initials]? *For a child under a year old, approx. their age. e.g,. six months old = .5*					
28. What gender does [initials] identify with?	○ Male ○ Female ○ Gender non-conforming ○ Declined ○ Don't know	○ Male ○ Female ○ Gender non-conforming ○ Declined ○ Don't know	○ Male ○ Female ○ Gender non-conforming ○ Declined ○ Don't know	○ Male ○ Female ○ Gender non-conforming ○ Declined ○ Don't know	○ Male ○ Female ○ Gender non-conforming ○ Declined ○ Don't know

39. Which years or in which theater of war did [initials] serve? *Wait for response and choose ALL that apply.*	❑ World War II (1940-1947) ❑ Between WWII and Korean War (1947-1950) ❑ Korean War (1950-1955) ❑ Between Korean War and Vietnam (1955-1964) ❑ Vietnam (1964-1975) ❑ Post-Vietnam (1975-1991) ❑ Persian Gulf (1991-2001) ❑ Afghanistan (2001-Present) ❑ Iraq-Operation Iraqi Freedom or Operation New Dawn (2003-2011) ❑ Declined ❑ Don't know	❑ World War II (1940-1947) ❑ Between WWII and Korean War (1947-1950) ❑ Korean War (1950-1955) ❑ Between Korean War and Vietnam (1955-1964) ❑ Vietnam (1964-1975) ❑ Post-Vietnam (1975-1991) ❑ Persian Gulf (1991-2001) ❑ Afghanistan (2001-Present) ❑ Iraq-Operation Iraqi Freedom or Operation New Dawn (2003-2011) ❑ Declined ❑ Don't know	❑ World War II (1940-1947) ❑ Between WWII and Korean War (1947-1950) ❑ Korean War (1950-1955) ❑ Between Korean War and Vietnam (1955-1964) ❑ Vietnam (1964-1975) ❑ Post-Vietnam (1975-1991) ❑ Persian Gulf (1991-2001) ❑ Afghanistan (2001-Present) ❑ Iraq-Operation Iraqi Freedom or Operation New Dawn (2003-2011) ❑ Declined ❑ Don't know	❑ World War II (1940-1947) ❑ Between WWII and Korean War (1947-1950) ❑ Korean War (1950-1955) ❑ Between Korean War and Vietnam (1955-1964) ❑ Vietnam (1964-1975) ❑ Post-Vietnam (1975-1991) ❑ Persian Gulf (1991-2001) ❑ Afghanistan (2001-Present) ❑ Iraq-Operation Iraqi Freedom or Operation New Dawn (2003-2011) ❑ Declined ❑ Don't know	❑ World War II (1940-1947) ❑ Between WWII and Korean War (1947-1950) ❑ Korean War (1950-1955) ❑ Between Korean War and Vietnam (1955-1964) ❑ Vietnam (1964-1975) ❑ Post-Vietnam (1975-1991) ❑ Persian Gulf (1991-2001) ❑ Afghanistan (2001-Present) ❑ Iraq-Operation Iraqi Freedom or Operation New Dawn (2003-2011) ❑ Declined ❑ Don't know

Thank you for answering those questions about your household. Next I'm going to ask you some additional personal questions about you. These questions are about your health and different lived experiences you have had. As a reminder, your answers will be kept confidential. Due to the personal nature of some of the questions, we have a response card for you to tell me the number that corresponds to your answer.

40. Do you have, have you ever had, or has a healthcare provider ever told you that you have any of the following health conditions? *Please use the response card. If respondent cannot read, proceed to reach each response and choose all that apply.*

- ❑ Problematic alcohol use (1)
- ❑ Problematic drug use (2)
- ❑ Serious and long continuing mental illness (e.g, depression, bipolar disorder, or schizophrenia) (3)
- ❑ Physical disability (4)
- ❑ Physical illness (chronic or ongoing) (5)
- ❑ HIV / AIDS-related illness (6)
- ❑ Severe depression (chronic or ongoing) (7)
- ❑ Post-Traumatic Stress Disorder (PTSD) (8)
- ❑ Traumatic Brain Injury (TBI) (9)
- ❑ Developmental disability (10)
- ❑ None of the above (11)
- ❑ Declined (12)
- ❑ Don't know (13)

41. Do you have any other ongoing health conditions? *If yes, write in any answers provided in the space below. If they do not wish to disclose information about their medical condition, leave the space blank.*

- ○ No
- ○ Yes (Specify): _____
- ○ Declined
- ○ Don't know

If respondent answers "None of the above," "Declined," or "Don't know," for Question 40 and "No," "Declined," or "Don't know" for Question 41, skip Question 42 and move on to the next prompt.

42. Is your medical condition or disability either permanent or long-term?

- ○ Yes
- ○ No
- ○ Declined
- ○ Don't know

*Make sure that the person being interviewed is safe from **immediate threats of violence** before asking the next four questions.* If you do not feel that the situation is safe to ask questions about domestic violence, select "Safety concern" for Questions 43 through 45. Then Proceed to Question 46 on the next page.

I'm about to ask three sensitive and personal questions about experiences with violence. Do you feel comfortable answering? *If the answer is No, select Declined for questions 43-45. If the answer is Unsure or Yes, offer to move to a more private location if the respondent would be more comfortable answering the questions. Please use the response card.*

43. Have you experienced any of the following forms of violence or abuse? *Please use the response card. If the person is not comfortable responding to the question, select Declined.*

- ❑ Neglect by parent, guardian, or other relative (1)
- ❑ Physical abuse by parent, guardian, or other relative (2)
- ❑ Sexual abuse by parent, guardian, or other relative(3)
- ❑ Physical abuse by intimate partner or spouse(4)
- ❑ Sexual abuse by intimate partner or spouse (5)
- ❑ Dating violence (6)
- ❑ Stalking (7)
- ❑ None of the above (8)
- ❑ Declined (9)
- ❑ Don't know (10)
- ❑ *Safety concern*

If only either of the following options are selected, skip to Question 46. If any other selections are made, and there is no safety concern, continue to Question 44.

44. Are you currently fleeing violence or abuse? *Please use the response card. If the person is not comfortable responding to the question, select Declined.*

- ○ Yes (1)
- ○ No (2)
- ○ Declined (3)
- ○ Don't know (4)
- ○ *Safety concern*

45. Are you experiencing homelessness because you are currently fleeing domestic violence, dating violence, sexual assault, or stalking? *Please use the response card. If the person is not comfortable responding to the question, select Declined.*

- ○ Yes (1)
- ○ No (2)
- ○ Declined (3)
- ○ Don't know (4)
- ○ *Safety concern*

46. This next question is about involvement in different systems. If you don't know or don't want to answer, let me know. Otherwise, say "yes" if you have ever been involved in any of the following systems. *Please read each option and choose ALL that apply. Choose None of the above if none apply.*

- ❑ Foster Care
- ❑ Juvenile Detention or Probation Camp
- ❑ Juvenile probation
- ❑ Mandated stay in inpatient or outpatient mental health treatment facility
- ❑ Jail
- ❑ Prison
- ❑ Adult Probation
- ❑ Parole
- ❑ None of the above
- ❑ Declined
- ❑ Don't know

If the following options are selected, ask Questions 47 and 48. Otherwise, skip to the next prompt.

47. How long ago were you last released from jail or prison?

Day(s)	
Week(s)	
Month(s)	
Year(s)	

48. When you were last released from jail or prison, were you released on probation or parole? *If yes, read each category that starts with "Yes" and choose all that apply.*

- ❑ Yes, probation
- ❑ Yes, parole
- ❑ None of the above
- ❑ Declined
- ❑ Don't know

Now I'm going to ask you a series of questions about WHERE you lived before you lost stable housing.

49. Have you ever lived outside of LA County?

- ○ Yes
- ○ No
- ○ Declined
- ○ Don't know

If "No" is selected, skip to Question 52.

50. How long has it been since you moved or moved back to LA County? *If respondent is unsure use an example, e.g., "six months ago I moved from out of state."*

Day(s)	
Week(s)	
Month(s)	
Year(s)	

51. Before the last time you lost your housing, where were you living? *Read each response and choose one answer.*

- ○ Los Angeles County
- ○ Other county in Southern California (Kern, Imperial, Orange, Riverside, San Bernardino, San Diego, San Luis Obispo, or Ventura)
- ○ Other county in California
- ○ Out of state
- ○ Outside of the United States
- ○ Declined
- ○ Don't know

If "Los Angeles County" is selected, ask Question 52. Otherwise, skip to Question 53.

52. What city or community in LA County did you live in before you lost your housing? *If the respondent is having difficulty, ask them where the neighborhood or specific area the house or apartment was that they stayed in. If the answer is LA, Los Angeles (City), please ask: "What neighborhood" Refer to your LA Cities and Communities Cheat Sheet for a list of communities and cities in Los Angeles County.*

53. What do you think are some of the main reasons or conditions that led to your loss of housing? *Wait for response and choose ALL that apply.*

- ❑ Break-up, divorce, or separation
- ❑ Child support issues
- ❑ Conflicts with family or household members
- ❑ Death or illness of family member or child
- ❑ Kicked out of home due to sexual orientation/ gender identity
- ❑ No friends or family available
- ❑ Domestic violence, parental abuse, partner abuse, dating violence, or stalking
- ❑ Physical Safety Concerns (e.g., gang related violence)
- ❑ Eviction or foreclosure
- ❑ Uninhabitable living conditions
- ❑ Timed out or left previous housing program
- ❑ Unemployment or financial reasons
- ❑ Medical, physical disability or illness
- ❑ Mental health issues
- ❑ Problematic alcohol or drug use
- ❑ Released from hospital, treatment facility, or other institution
- ❑ Release from jail or prison
- ❑ Recent immigration
- ❑ Left or aged out of foster care
- ❑ Declined
- ❑ Don't know
- ❑ Other (Specify): _____

54. Do you live with any pets including service animals? *If the response is "yes" ask, if so, how many pets do you have?*

- ○ Yes (specify): _____
- ○ No
- ○ Declined
- ○ Don't know

55. Which of the following would best describe your employment situation? *Wait for response, and choose the most appropriate response. If unemployed or not working, ask for clarification.*

- ❑ Disabled or on disability
- ❑ Retired
- ❑ Full-time (more than 35 hours)
- ❑ Part-time (35 hours or less)
- ❑ Seasonal work (recurring temporary work)
- ❑ Temporary work (limited contract with termination date)
- ❑ Self-employed
- ❑ Unemployed; actively looking for work
- ❑ Unemployed; not actively looking for work
- ❑ Unemployed; student
- ❑ None of the above
- ❑ Declined
- ❑ Don't know

56. Have you ever worked or done an illegal act and someone else took some or all of the money?

Please use the response card.

- ○ Yes (1)
- ○ No (2)
- ○ Declined (3)
- ○ Don't know (4)

If the response to Question 56 is "No," skip to Question 58.

57. What type of work/illegal act did you have to do? *Please use the response card. Read each category and choose all that apply.*

- ❑ Agricultural work (1)
- ❑ Panhandling (2)
- ❑ Door-to-door sales (3)
- ❑ Restaurant/catering work (4)
- ❑ Household/childcare work (5)
- ❑ Illegal goods sales (drugs, guns, etc.) (6)
- ❑ Sex work (7)
- ❑ Other (8)
- ❑ Declined (9)
- ❑ Don't know (10)

58. Do you receive any of the following forms of government assistance? *Read each category following the directions in red and choose ALL that apply.*

- ❑ CAPI - Cash Assistance Program for Immigrants
- ❑ Child support or survivor benefits
- ❑ Food Stamps / EBT Card / CalFresh
- ❑ GR / GA - General Relief or Assistance
- ❑ My Health LA (DHS)
- ❑ Medicaid / Medi-Cal / LA Care/ HealthNet
- ❑ SSI / SSDI / Disability
- ❑ Medicare (respondents born before 1957 only)
- ❑ Unemployment (unemployed persons only)
- ❑ Veteran's Disability (vets only)
- ❑ Veterans Medical Center / Veteran Benefits (vets only)
- ❑ Veteran's Pension (vets only)
- ❑ State children's health insurance (CHIP/ Healthy Families) (families only)
- ❑ CalWORKs / TANF (families only)
- ❑ WIC - Women, Infants, and Children (families only)
- ❑ None at this time
- ❑ Declined
- ❑ Don't know

59. What is your approximate monthly income, including cash benefits (e.g., SSI, GR) and any other sources of money?

Thank you for taking time to complete the Demographic Survey and for sharing this information about you and your experiences. Here is your food card! Please complete the STAFF USE ONLY section below before continuing to the next respondent

STAFF ONLY

Food Card Received?

○ Yes
○ No

Surveyor, what is the status of the survey?

- ○ Complete (respondent was asked every question, excluding skip logic)
- ○ Partial (respondent didn't finish survey)
- ○ Sheltered/Housed/Cannot Confirm Eligibility
- ○ Refusal (at any point, respondent declined to take or continue the survey)
- ○ Not approached/ Unapproachable

Appendix B – Demographic Survey Protocols

DEMOGRAPHIC SURVEY PROTOCOL

This document describes the steps USC followed to conduct the 2018 Greater Los Angeles Homeless Count – Demographic Survey: a survey that compliments the 2018 Greater Los Angeles Homeless Point in Time Count (PIT). The PIT took place between January 23rd and 25th, 2018 and covered all census tracts (CTs) across Los Angeles County (LAC). The Demographic Survey took place between December 11, 2017 and March 14, 2018 – covering 483 CTs throughout LAC.

OVERALL DATA COLLECTION STRATEGY

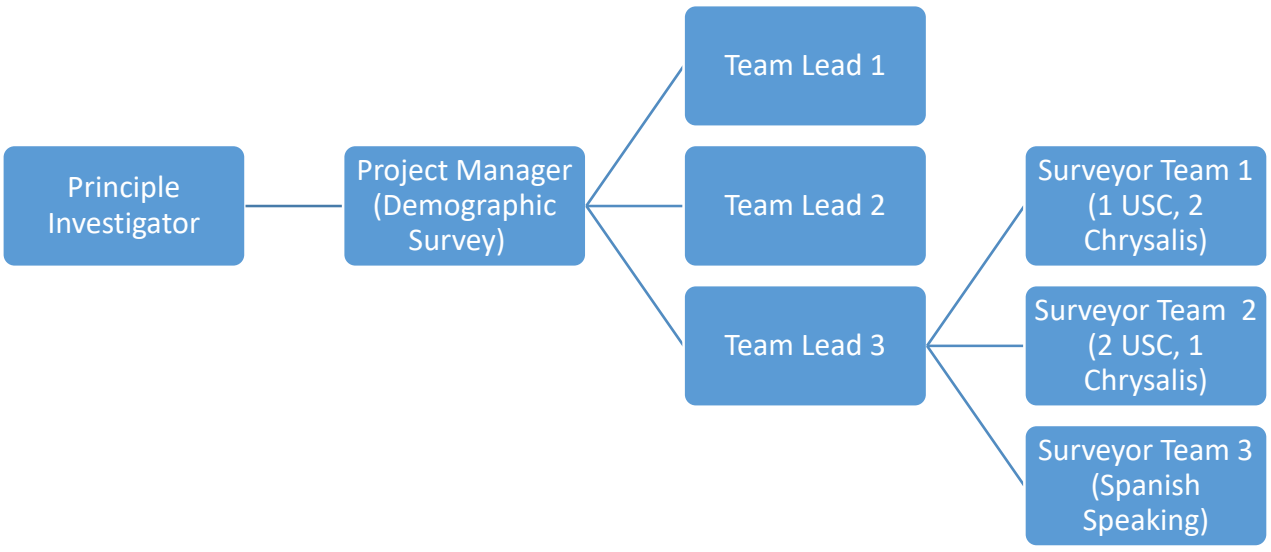
Street Survey Teams

USC street survey teams consisted of a mix of fulltime staff with lived experience of homelessness, staff without lived experience, and USC students.

Surveyors were broken into smaller groups – each with a team lead. Teams were able to maintain a mix of students, persons with lived experience of homelessness, drivers, and someone who is proficient in Spanish. Figure One illustrates survey teams and reporting structures.

[Note: in order to capitalize on student availability during the academic winter break, student heavy teams conducted data collection between December 11th, 2017– January 8th, 2018. After January 8th, 2018 there was much less student involvement in data collection.]

Figure One: Staffing Chart



Youth Count

Data collection was stopped during the Youth Count. This was done to ensure to limited resources and the time sensitive nature of the Youth Count. The USC Survey team did not conduct any Demographic Surveys from January 22nd to January 31st, 2018.

Community Partners

The USC survey teams contacted community organizations, such as churches, libraries, drop in centers, and other social service organizations when their locations fell within selected sample CTs. Surveyors were allowed access to individuals and clients within these agencies (with the agencies' consent) and conducted surveys with all who qualified. At times these Community Partners aided in engaging clients or patrons to assist with those who were distrustful of the USC survey team. In this way, the Community Partners acted as a navigator for the USC survey team but Community Partners did not conduct surveys on behalf of the USC survey team.

Data Collection Types

Normal Data Collection

Initially the USC offices located at 1150 S. Olive served as a deployment site in order to cover CTs located in the downtown area, specifically starting with Skid Row (please see SPA specific timelines and plans for more details). As teams began to spread out and cover CTs further away from downtown, we identified other secure locations convenient for teams to meet at the beginning and end of each day's deployment. In some cases, street corners, parking lots, or stores (e.g. Starbucks, McDonald's, etc.) served as the location of a deployment site.

Deployment daily schedule

Surveyors were typically expected to arrive at deployment sites either by 9:00am. Exact times were subject to change depending on commute times and/or advanced knowledge about more appropriate times to encounter and engage the target population. For example, when known that persons experiencing homelessness might only be found earlier in the morning or later in the evening, survey teams adjusted their schedules accordingly.

A typical surveyor schedule included two separate data collection windows (9:00am-11:30am and 12:00pm-2:30pm) that allowed for a lunch break and huddles in the morning and de-briefs in the afternoon with team leads.

Geographic canvasing

Surveyors were expected to cover the entire geography of an assigned CT either on foot or by vehicle. Team leads provided each surveyor a map of the CT being covered along with an agreed upon route to ensure all areas were systematically canvased. Some CTs were broken down into sections that were canvased on consecutive days depending on the size of the CT or population density.

Blitz Weekends/Weeks

Three communities - Hollywood, Venice, and Skid Row - were covered through a series of 'blitz weekends/weeks.' The entire survey team came together and slit up these geographically small but highly dense communities over a small number of days. This was done to optimize efforts in these highly dense areas and to prevent duplication surveys from occurring.

SPA-SPECIFIC DEPLOYMENT PLANS

Based on the needs of each SPA USC developed SPA-specific deployment plans to canvas the 483 total CTs that were sampled across Los Angeles county.

Each SPA had a USC-staffed lead who served as the point person for deployments. Some SPAs (e.g. SPA 6) had multiple leads and was sub-divided into sub-SPA regions. The lead assisted in coordinating all surveying efforts, gift card distribution and tracking, and served as the point of contact for the USC project coordinator and any adjoining efforts from LAHSA or other service providers.

SPA 1 – Antelope Valley

- Data Collection: February 5, 2018 – March 12, 2018
- Number of selected CTs: 20
- Community Partners: LAHSA ERT & Mental Health America

SPA 2 – San Fernando

- Data Collection: December, 18, 2017 – March 9, 2018
- Number of selected CTs: 151
- Community Partners: LAHSA ERT & Volunteers of America

SPA 3 – San Gabriel

- Data Collection: January 2 – 6, 2018 & February 5 – 9, 2018
- Number of selected CTs: 51
- Community Partners: LAHSA ERT

SPA 4 – Metro

- Data Collection: January 2 – 6, 2018 & February 5 – 9, 2018
- Number of selected CTs: 51
- Community Partners: LAHSA ERT The Center, Salvation Army – Hollywood, Lighthouse Ministries (First Presbyterian)

SPA 5 – West

- Data Collection: December, 22, 2017; January 1 – 5 & 17 – 21, 2018; February 12 – 20, 2018
- Number of selected CTs: 41
- Community Partners: LAHSA ERT, St. Joseph's Center, The People Concern (OPCC SAMOSHEL/SWASHLOCK), & Virginia Avenue Park (City of Santa Monica)

SPA 6 – South

- Data Collection: December, 18 – 29, 2017; January 8 & 19, 2018; February 19 – 23, 2018
- Number of selected CTs: 50
    - Stacy
- Community Partners: LAHSA ERT & Watts Labor Community Action Committee

SPA 7 – East

- Data Collection: December, 18 – 29, 2017; January 8 & 19, 2018; February 19 – 23, 2018
- Number of selected CTs: 34
- Community Partners: LAHSA ERT, PATH, & Kingdom Causes

SPA 8 – South Bay

- Data Collection: February 12 – 26, 2018
- Number of selected CTs: 42
- Community Partners: LAHSA ERT, City of Avalon

SPA 9 – Skid Row

- Data Collection: December 11 – 14, 2017
- Number of selected CTs: 4
- Community Partners: N/A

SPA 10 – Venice

2018 Youth Count Survey

Los Angeles Homeless Services Authority

Interviewer Instructions: *Any text that is **bold** should be read aloud to the survey respondent. Directions and prompts, along with additional information for clarification are included in italics. Directions on question logic, such as skipping questions, is in red. Please skip questions only when directed by these prompts. Single choice responses are indicated by bubbles, while multiple selection responses are indicated by check boxes. The Staff Use Only section is for the interviewer to fill out after the survey has been completed.*

Before we begin, I want to remind you that this interview is completely voluntary and your answers will be kept confidential. If we should come to any questions you don't want to answer, just let me know and we will go on to the next question. We are interested in the opinions and living conditions of different people throughout Los Angeles County. I will ask questions about your experience with housing, services, and some things about yourself. I think you'll find the questions interesting and you'll want to give them careful thought.

If you qualify for survey participation, you will receive a $10 food card for your time. The survey will take around 10-15 minutes. After eligibility is determined, your responses to the survey questions will not affect your eligibility to receive the food card.

Do you understand the purpose of the survey, and that your answers will be kept confidential?

- ○ Yes, *Continue with the Youth Count Survey*
- ○ No, *Please re-read the introduction and confidentiality statement one more time before going to next participant.*

1. Have you received a food card after participating in the LA Youth Count survey in the past week? *If unsure, follow-up with further questions about specific survey questions.*

- ○ Yes
- ○ No

If yes, say, **"Thank you for your time. We are only surveying people once. We appreciate you completing the survey."** Continue to the next person.

The next questions determine your eligibility to take the complete survey.

2. What is your date of birth?

Month	Day	Year

If date of birth is **before 1/23/1993**, the person is 25 or older and **ineligible** for the survey. Say, **"I'm sorry, we are only surveying youth under 25. Thank you for your time."** then skip to **FOR STAFF ONLY** (page 16).

If date of birth is **on or after 1/23/1993,** continue to Question 3.

3. Where have you spent most of your nights in the last 30 days? *Wait for response, then select the choice closest to their answer. If asked to clarify, ask, "Have you spent more than two weeks out of the past month in the same place? If so, where was that?"*

○ Emergency shelter	○ Street, sidewalk, or alley	○ Car or truck
○ Hotel or motel	○ Bus or train stop/ station, transit center or airport	○ Van
○ Transitional housing	○ Campground or woods	○ RV or camper
○ Youth shelter	○ Park, beach, or riverbed	○ Outdoor encampment or tent
○ Hospital, substance abuse or psychiatric treatment facility	○ Under bridge or overpass	○ Unconverted garage, attic, or basement
○ Jail or prison	○ Other outdoor location	○ Other makeshift shelter not meant for human habitation
○ Safe haven	○ Abandoned building	
○ Your own apartment or home	○ Parking lot (surface)	
○ Apartment or home of a friend or family member	○ Parking structure	
○ With someone unknown because you needed a place to stay		
○ Foster care or group home		
○ Declined		
○ Don't know		

4. You told me where you had spent the most nights in the past 30 days? Where did you spend last night?
Wait for response, then select the choice closest to their answer.

○ Emergency shelter	○ Street, sidewalk, or alley	○ Car or truck
○ Hotel or motel	○ Bus or train stop/ station, transit center or airport	○ Van
○ Transitional housing	○ Campground or woods	○ RV or camper
○ Youth shelter	○ Park, beach, or riverbed	○ Outdoor encampment or tent
○ Hospital, substance abuse or psychiatric treatment facility	○ Under bridge or overpass	○ Unconverted garage, attic, or basement
○ Jail or prison	○ Other outdoor location	○ Other makeshift shelter not meant for human habitation
○ Safe haven	○ Abandoned building	○ Declined
○ Your own apartment or home	○ Parking lot (surface)	○ Don't Know
○ Apartment or home of a friend or family member	○ Parking structure	○ **Same as previous response**
○ With someone unknown because you needed a place to stay		
○ Foster care or group home		
○ Declined		
○ Don't know		

If any answer in the **RED BOX** in Question 3 is selected, say **"I'm sorry, you do not qualify for the Youth Count Survey. Thank you for your time."** Then skip to **FOR STAFF ONLY** (page 16). If any other choice is selected, continue below.

5. What city or community in LA County were you sleeping in last night? *If the answer is LA, Los Angeles (City), please ask: "What neighborhood." Refer to your LA Cities and Communities Cheat Sheet for a list of communities and cities in Los Angeles County.*

○ **Same as survey location**

You are eligible to complete the Survey. First, I'm going to ask you some questions about you and your personal experiences.

6. What are your initials? *Enter first and last.*

7. What gender do you identify with? *Wait for response and choose one answer. Read each category if response given is not listed.*

○ Male
○ Female
○ Gender non-conforming
○ Declined
○ Don't know

8. Do you identify as transgender?

- ○ Yes
- ○ No
- ○ Declined
- ○ Don't know

9. Which of the following best represents your sexual orientation? *Read each category and choose one answer.*

- ○ Straight
- ○ Gay or lesbian
- ○ Bisexual
- ○ Unsure/ Questioning
- ○ Other (specify):_____
- ○ Declined

10. Do you identify as Hispanic or Latino? *If yes, read each category that starts with "Yes" and choose all that apply.*

- ❑ No, not of Hispanic, Latino, or Spanish origin
- ❑ Yes, Mexican, Mexican American, Chicano
- ❑ Yes, Puerto Rican
- ❑ Yes, Cuban
- ❑ Yes, another Hispanic, Latino, or Spanish origin (specify): _____
- ❑ Declined

Don't know

11. What race do you identify with? *Wait for response and choose one answer. Read each category if response is not listed. If response is "Hispanic" or "Latino" select "Some other race (specify)" and write in "HL"*

- ❑ White
- ❑ Black or African-American
- ❑ American Indian or Alaska Native (specify enrolled or principal tribe): _____
- ❑ Asian Indian
- ❑ Chinese
- ❑ Filipino
- ❑ Japanese
- ❑ Korean
- ❑ Vietnamese
- ❑ Native Hawaiian
- ❑ Guamanian or Chamorro
- ❑ Samoan
- ❑ Other Asian (specify): _____
- ❑ Other Pacific Islander (specify): _____
- ❑ Some other race (specify): _____
- ❑ Declined
- ❑ Don't know

12. Have you served on ACTIVE DUTY in the U.S. Armed forces (Army, Air force, Navy, Marine Corps, or Coast Guard?) *Choose one answer.*

- ○ Yes
- ○ No
- ○ Declined
- ○ Don't know

13. Were you called into ACTIVE DUTY as a member of the National Guard or as a reservist? *Choose one answer.*

- ○ Yes
- ○ No
- ○ Declined
- ○ Don't know

If answer to either Question 12 or Question 13 is "Yes", complete Question 14. Otherwise, skip to Question 15.

14. What is your discharge status? *Choose one answer. If none of the below answers are given, select Unverified.*

- ○ Honorable
- ○ General under honorable conditions
- ○ Under other than honorable conditions (OTH)
- ○ Bad Conduct
- ○ Dishonorable
- ○ Uncharacterized
- ○ **Unverified**
- ○ Declined
- ○ Don't know

15. Is this the first time you have experienced homelessness? *Choose one answer.*

- ○ Yes
- ○ No
- ○ Declined
- ○ Don't know

If answer to Question 15 is "Yes," skip to Question 17.

16. How old were you the FIRST TIME you experienced homelessness?

17. How long have you been experiencing homelessness THIS TIME? *Enter your best approximation of their response in the boxes below.*

Days	
Weeks	
Months	
Years	

18. IN THE PAST YEAR, including this time, how many separate times have you experienced homelessness, on the street, in a vehicle or in shelters? *For example, if the respondent has been housed one time for a brief period in the past year and they were homeless before and after that, that means two separate episodes or experiences of homelessness took place. Choose one answer.*

- ○ 1 time
- ○ 2 to 3 times
- ○ 4 or more times
- ○ Declined
- ○ Don't know

If the response to Question 17 was 1 year or greater, select 1 time and continue to Question 19.

19. IN THE PAST THREE YEARS, what about the number of separate times you experienced homelessness, on the street, in a vehicle or in shelters? *Choose one answer.*

- ○ 1 time
- ○ 2 to 3 times
- ○ 4 or more times
- ○ Declined
- ○ Don't know

If the response to Question 17 was 3 years or greater, select 1 time and continue to Question 21.

If 4 or more times is NOT selected, continue to Question 21.

20. IN THE PAST THREE YEARS, have you stayed in shelters or on the streets for longer than A YEAR in total? *Choose one answer.*

- ○ Yes
- ○ No
- ○ Declined
- ○ Don't know

21. IN THE PAST 6 MONTHS, have you lived in any of the following situations? *List each category below, and check the appropriate box. If they have not lived in the situation, do not check the box. Note: A makeshift shelter is a structure made of available materials that is not meant for human habitation.*

- ❑ Have you lived in a Car?
- ❑ Have you lived in a Van?
- ❑ Have you lived in a RV/Camper?
- ❑ Have you lived in a Tent?
- ❑ Have you lived in a Makeshift Shelter?
- ❑ None of the Above
- ❑ Declined
- ❑ Don't Know

22. In each of the following situations, can you tell me how many other people lived with you, NOT including yourself? *Leave text boxes blank if respondent does not know or declines to answer. If the respondent lived alone, enter 0 in the text boxes.*

Car	
Van	
RV/ Camper	
Tent	
Makeshift Shelter	

Now I'm going to ask you some questions about people who live with you. Depending on how many people you live with and who they are, I may ask additional questions about them.

23. NOT including yourself, how many adults and children are there in your household? A household can be a person living alone or living with others, or a group of people who live together and normally buy and prepare their food together. *Only fill in answers if the person is living with at least one other person.*

Adults over 24	
Adults 18 to 24	
Under 18	

The next section is for families that include at least one parent of any age, **and one child under 18 years of age**. If the respondent does not indicate that they live with at least one child under the age of 18, **skip to the prompt at the top of Page 12.**

Thank you again. Now, I'm going to ask some personal questions about the people you live with. I'll refer to them by the initial(s) or nickname(s) you give me. As a reminder, all answers will be kept confidential. You will receive an additional $5 in compensation for your family.

What are the initials or a nickname of other people in your household from oldest to youngest? *Fill in the initials or nickname of each family member in the boxes below. Complete the responses in each column for each family member.*

Question	Person 1	Person 2	Person 3	Person 4	Person 5
24. What are the initials or a nickname of other people in your household from oldest to youngest?					
Next, I'm going to ask some personal questions about the people you live with. I'll refer to them by the initial(s) or nickname(s) you gave me. *Refer to the person by initials or by nick name provided above. Finish all questions for each person before continuing to the next family member.*					
25. How is [initials] related to you? *Choose one answer.*	○ Child ○ Spouse ○ Other Family ○ Non-married partner ○ Other/Non-family	○ Child ○ Spouse ○ Other Family ○ Non-married partner ○ Other/Non-family	○ Child ○ Spouse ○ Other Family ○ Non-married partner ○ Other/Non-family	○ Child ○ Spouse ○ Other Family ○ Non-married partner ○ Other/Non-family	○ Child ○ Spouse ○ Other Family ○ Non-married partner ○ Other/Non-family
26. How old is [initials]? *If the family member is a child under a year old, approx. their age in decimals. e.g. six months old = .5*					

Initials					
27. What gender does [initials] identify with? *Choose one answer.*	○ Male ○ Female ○ Gender non-conforming ○ Declined ○ Don't know	○ Male ○ Female ○ Gender non-conforming ○ Declined ○ Don't know	○ Male ○ Female ○ Gender non-conforming ○ Declined ○ Don't know	○ Male ○ Female ○ Gender non-conforming ○ Declined ○ Don't know	○ Male ○ Female ○ Gender non-conforming ○ Declined ○ Don't know
28. Does [initials] identify as transgender? *Choose one answer.*	○ Yes ○ No ○ Declined ○ Don't know	○ Yes ○ No ○ Declined ○ Don't know	○ Yes ○ No ○ Declined ○ Don't know	○ Yes ○ No ○ Declined ○ Don't know	○ Yes ○ No ○ Declined ○ Don't know
29. Thank you for answering those questions about people you live with.

Next, I'm going to ask you some additional personal questions about you. These questions are about your health and different lived experiences you have had. As a reminder, your answers are confidential. Due to the personal nature of the questions, we have a response card for you to tell me the number that corresponds to your answer

38. Do you have, have you ever had, or has a healthcare provider ever told you that you have any of the following health conditions? *Please use the response card. If respondent cannot read, proceed to read each response and choose all that apply.*

- ❑ Problematic alcohol use (1)
- ❑ Problematic drug use (2)
- ❑ Serious and long continuing mental illness (e.g, depression, bipolar disorder, or schizophrenia) (3)
- ❑ Physical disability (4)
- ❑ Physical illness (chronic or ongoing) (5)
- ❑ HIV / AIDS-related illness (6)
- ❑ Severe depression (chronic or ongoing) (7)
- ❑ Post-Traumatic Stress Disorder (PTSD) (8)
- ❑ Traumatic Brain Injury (TBI) (9)
- ❑ Developmental disability (10)
- ❑ None of the above (11)
- ❑ Declined (12)
- ❑ Don't know (13)

39. Do you have any other ongoing health conditions? *Choose one answer. If yes, write in any answers provided in the space below. If they do not wish to disclose information about their medical condition, leave the space blank.*

- ○ No
- ○ Yes (specify): _____
- ○ Declined
- ○ Don't know

If respondent answers, "None of the above," "Declined," or "Don't know," for Question 38 and "No," "Declined," or "Don't know" for Question 39, skip Question 40 and move on to Question 41.

40. Is your medical condition or disability either permanent or long-term? *Choose one answer.*

- ○ Yes
- ○ No
- ○ Declined
- ○ Don't know

41. Have you ever been involved in an inpatient or outpatient mandated stay in a mental health treatment facility? *Choose one answer.*

- ○ Yes
- ○ No
- ○ Declined
- ○ Don't know

*Make sure that the person being interviewed is safe from **IMMEDIATE THREATS OF VIOLENCE** before asking the next two questions.*

If you do not feel that the situation is safe to ask about domestic violence, select "Safety concern" for Questions 42-43 and continue to Question 43.

I'm about to ask two sensitive and personal questions about experiences with violence. Do you feel comfortable answering? *If the answer is "No," select "Declined" for Questions 35 and 36. If the answer is "Unsure" or "Yes," offer to move to a more private location if the respondent would be more comfortable answering the questions. Please use the response card.*

42. Have you ever experienced any of the following forms of violence or abuse? *Please use the response card. If the person is not comfortable responding to the question, select "Declined." Choose one answer.*

- ❑ Neglect by parent, guardian, or other relative (1)
- ❑ Physical abuse by parent, guardian, or other relative (2)
- ❑ Sexual abuse by parent, guardian, or other relative (3)
- ❑ Physical abuse by intimate partner or spouse (4)
- ❑ Sexual abuse by intimate partner or spouse (5)
- ❑ Dating violence (6)
- ❑ Stalking (7)
- ❑ None of the above (8)
- ❑ Declined (9)
- ❑ Don't know (10)
- ❑ *Safety concern*

If only either of the following options are selected, skip to Question 44. If any other selections are made, and there is no safety concern, continue to Question 43.

43. Are you experiencing homelessness because you are currently fleeing domestic violence, dating violence, sexual assault, or stalking?

- ○ Yes (1)
- ○ No (2)
- ○ Declined (3)
- ○ Don't know (4)
- ○ *Safety concern*

I'm about to ask you two sensitive and personal questions. Your answers will be kept confidential. You will not get in trouble for your responses.

44. Have you ever worked or done an illegal act and someone else took some or all of the money? *Please use the response card.*

- ○ Yes (1)
- ○ No (2)
- ○ Declined (3)
- ○ Don't know (4)

If the response to Question 44 is "No," skip to Question 46.

45. What type of work/illegal act did you have to do? *Please use the response card. Read each category and choose all that apply.*

- ❑ Agricultural work (1)
- ❑ Panhandling (2)
- ❑ Door-to-door sales (3)
- ❑ Restaurant/catering work (4)
- ❑ Household/childcare work (5)
- ❑ Illegal goods sales (drugs, guns, etc.) (6)
- ❑ Sex work (7)
- ❑ Other (8)
- ❑ Declined (9)
- ❑ Don't know (10)

46. This next question is about involvement in different criminal justice systems. If you don't know or don't want to answer, let me know. Otherwise, say "yes" if you have ever been involved in any of the following systems. *Please read each option and choose ALL that apply. Choose None of the above if none apply.*

- ❑ Juvenile Detention or Probation Camp
- ❑ Juvenile Probation Group Home/Residential Program
- ❑ Juvenile Home Probation
- ❑ Jail
- ❑ Prison
- ❑ Adult Probation
- ❑ Parole
- ❑ None of the above
- ❑ Declined
- ❑ Don't know

47. This next question is about involvement in different child welfare systems. If you don't know or don't want to answer, let me know. Otherwise, say "yes" if you have ever been involved in any of the following programs. *Please read each option and choose ALL that apply. Choose "None of the Above" if none apply.*

- ❑ Foster Care placement with extended family (Relative or Kinship Care)
- ❑ Foster Care placement with nonrelative family
- ❑ Foster Care Residential or Group Home placement
- ❑ Extended Foster Care (AB 12)
- ❑ Independent Living Program (ILP)
- ❑ None of the above
- ❑ Declined
- ❑ Don't know

48. Are you currently enrolled in school? *If yes, read each category that starts with "Yes" and choose the one that applies.*

- ○ No, not currently enrolled in school
- ○ Yes, Grade 12 or less
- ○ Yes, community college
- ○ Yes, vocational or technical training
- ○ Yes, 4-year college or university
- ○ Yes, currently enrolled in other (specify):_____
- ○ Declined
- ○ Don't know

49. What is the highest level of education you have completed? *Wait for response and select the category that applies. If response is "Other" and described as vocational or technical training, write in "VOC."*

- ○ Less than high school diploma/No GED
- ○ High school diploma/GED
- ○ Some college or Associate's Degree (A.S)
- ○ Bachelor's degree or greater
- ○ Other: _____
- ○ Declined
- ○ Don't know

Now I'm going to ask you a series of questions about WHERE you lived before you lost stable housing.

50. Have you ever lived outside of LA County? *Choose one answer.*

- ○ Yes
- ○ No
- ○ Declined
- ○ Don't know

If "No" is selected, skip to Question 53.

51. How long has it been since you moved to or moved back to LA County?

Day(s)	
Week(s)	
Month(s)	
Year(s)	

52. Before the last time you lost your housing, where were you living? *Read each response and choose one answer.*

- ○ Los Angeles County
- ○ Other county in Southern California (Kern, Imperial, Orange, Riverside, San Bernardino, San Diego, San Luis Obispo, or Ventura)
- ○ Other county in California
- ○ Out of state
- ○ Outside of the United States
- ○ Declined
- ○ Don't know

If "Los Angeles County" is selected, ask Question 53. Otherwise, Skip to Question 54.

53. What city or community in LA County did you live in before you lost your housing? *If the answer is LA, Los Angeles (City), please ask: "What neighborhood" Refer to your LA Cities and Communities Cheat Sheet for a list of communities and cities in Los Angeles County.*

54. What do you think are some of the main reasons or conditions that led to your loss of housing? *Wait for response and choose ALL that apply.*

- ❑ Left or aged out of foster care
- ❑ Physical Safety Concerns (e.g., gang related violence)
- ❑ Conflicts with family or household members
- ❑ Death or illness of family member or child
- ❑ Kicked out of home due to sexual orientation/ gender identity
- ❑ No friends or family available
- ❑ Domestic violence, parental abuse, partner abuse, dating violence, or stalking
- ❑ Child support issues
- ❑ Eviction or foreclosure
- ❑ Uninhabitable living conditions
- ❑ Timed out or left previous housing program
- ❑ Unemployment or financial reasons
- ❑ Medical, physical disability or illness
- ❑ Mental health issues
- ❑ Personal alcohol or drug use
- ❑ Released from hospital, treatment facility, or other institution
- ❑ Release from jail or prison
- ❑ Recent immigration
- ❑ Break-up, divorce, or separation
- ❑ Declined
- ❑ Don't know
- ❑ Other (Specify): _____

55. Which of the following would best describe your employment situation? *Read each category and select from the options below.*

- ○ Unemployed; student
- ○ Unemployed; actively looking for work
- ○ Unemployed; not actively looking for work
- ○ Disabled or on disability
- ○ Full-time (more than 35 hours)
- ○ Part-time (35 hours or less)
- ○ Seasonal work (recurring temporary work)
- ○ Temporary work (limited contract with termination date)
- ○ Self-employed
- ○ None of the above
- ○ Declined
- ○ Don't know

56. Do you receive any of the following forms of government assistance? *Read each category and choose ALL that apply.*

- ❑ Extended Foster Care benefits (AB12/EFC) (foster care only)
- ❑ Student Financial Aid (students only)
- ❑ CAPI - Cash Assistance Program for Immigrants
- ❑ Child support or survivor benefits
- ❑ Food Stamps / EBT Card / CalFresh
- ❑ GR / GA - General Relief or Assistance
- ❑ My Health LA (DHS)
- ❑ Medicaid / Medi-Cal / LA Care/ HealthNet
- ❑ SSI / SSDI / Disability
- ❑ Unemployment (unemployed persons only)
- ❑ Veteran's Disability (vets only)
- ❑ Veterans Medical Center / Veteran Benefits (vets only)
- ❑ Veteran's Pension (vets only)
- ❑ State children's health insurance (CHIP/ Healthy Families) (families only)
- ❑ CalWORKs / TANF (families only)
- ❑ WIC - Women, Infants, and Children (families only)
- ❑ None at this time
- ❑ Declined
- ❑ Don't know

Thank you for taking time to complete the Youth Count Survey and for sharing this information about you and your experiences. Here is your food card! Please complete the STAFF USE ONLY section below before continuing to the next respondent.

STAFF ONLY

Surveyor, what is that status of the survey?

- ○ Complete (respondent was asked every question)
- ○ Partial (respondent was asked some questions)
- ○ Age disqualification (respondent 25 or older)
- ○ Sheltered/Housed/Cannot Confirm
- ○ Language Barrier
- ○ Not Approached/Unapproachable
- ○ Refusal (at any point, respondent declined to take or continue the survey)

Food card received?

- ○ Yes

Appendix D – Youth Count Survey Protocols

YOUTH COUNT PROTOCOL

This document describes the steps USC followed to conduct the 2018 Greater Los Angeles Youth Count: a survey-based count that took place between January 22nd and 31st, 2018 and covered 445 selected census tracts across Los Angeles county [Note: additional Youth surveys were also collected during the 2018 Greater Los Angeles Demographic Survey that took place between December 11th 2017 and March 14th, 2018].

OVERALL DATA COLLECTION STRATEGY

Youth Count efforts employed two types of location-based data collection strategies: 1) street survey teams and 2) access points.

Street survey teams. Teams assigned and coordinated to conduct surveys in selected census tracts (CTs). Survey teams consisted of:

- Surveyors - USC staff, youth provider staff, or youth provider approved volunteers who completed all necessary trainings
- Youth Navigators - youth with local service planning areas (SPA) knowledge, recruited and approved by youth providers, who assisted in the identification and engagement of potential youth experiencing homelessness
- Transporters - USC staff, youth provider staff, or approved volunteers tasked with transporting street survey teams.

Survey teams were assigned to deployment sites within each SPA (centralized meeting place where street survey teams can gather to coordinate, review, and prepare for surveying).

Access points (AP). Community organizations where youth experiencing homelessness typically access services. AP administrators agreed to provide staffing resources to assist in survey data collection ranging from two to 10 days. APs were instructed to assess eligibility of all youth accessing services at the AP (based on age and housing status) and administer the survey to all eligible youth on the same day if possible. High capacity APs (those that saw over 50 unique youth per day) utilized a waiting list to ensure all eligible youth were surveyed when resources permitted.

[Note: The entire CT in which the APs are located were also covered geographically: street survey teams conducted surveys outside of the AP facilities].

Youth Count survey collection happened in two time frames: 1) blitz days and 2) extended time periods.

Blitz Days. In five of the eight SPAs, USC supported a blitz day model in which youth homelessness provider organizations dedicated resources (i.e. staff, volunteers, transportation) to canvas the geography of the selected CTs and conduct as many surveys with homeless youth as possible on a predetermined day (or days). USC staffed surveyors supported youth homelessness provider organizations and volunteers in creating street survey teams who canvassed CTs that were identified in the sampling strategy.

During the blitz days, street survey teams prioritized CTs that were identified as including “hot spots” in which homeless youth were expected to be found. Additionally, hot spot data was used to strategize the times (morning, afternoon, evening) that street teams canvassed CTs.

Extended time periods. As youth homelessness providers did not have the capacity to canvas all CTs included as part of the youth count sample during blitz days, street survey teams covered any remaining CTs during an extended time period. This included non-hot spot CTs and CTs that required specialized deployment such as those with unique geography (i.e. mountains, airports, river beds) or large geographic coverage.

SPA-SPECIFIC DEPLOYMENT PLANS

Based on the capacity of youth homelessness provider organizations in each of Los Angeles County's eight SPAs, USC developed SPA-specific deployment plans to canvas the 445 total CTs that were sampled across Los Angeles county for the youth count.

Each SPA had a USC-staffed lead who served as the point person for team deployment particularly on SPA identified blitz days. The lead assisted in coordinating CT maps, gift cards and served as the point of contact for provider based surveyors, volunteers and youth navigators.

SPA 1 – Antelope Valley

- Blitz Day: January 27th
- Extended Time Period: January 22nd – January 31st
- Number of selected CTs: 23
- Estimated population in selected CTs: 561
- Access Points: Valley Oasis, Mental Health America, Antelope Valley Youth Build, Say to Yes Kids

SPA 2 – San Fernando Valley

- Blitz Day: January and 27th and 29th
- Extended Time Period: January 22nd – January 31st
- Number of selected CTs: 109
- Estimated population in selected CTs: 1484
- Access Points: Goodwill South Valley Youth Service Center, The Village Family Services

SPA 3 – San Gabriel Valley

- Blitz Day: None
- Extended Time Period: January 22nd – January 31st
- Number of selected CTs: 57
- Estimated population in selected CTs: 328
- Access Points: Pacific Clinics HOPE Drop-In Center

SPA 4 – Metro

- Blitz Day: January 24th (January 22nd in Skid Row)
- Extended Time Period: January 22nd – January 31st
- Number of selected CTs: 68 (4/68 in Skid Row and 16/58 in Hollywood)
- Estimated population in selected CTs: 1420
- Access Points: Los Angeles LGBT Center, Covenant House of California, Jovenes Inc, My Friend's Place

SPA 5 – West

- Blitz Day: January 23rd
- Extended Time Period: January 22nd – January 31st
- Number of selected CTs: 37 (11/37 in Venice)
- Estimated population in selected CTs: 602
- Access Points: St. Joseph's Center, Safe Place for Youth, Daniel's Place

SPA 6 – South

- Blitz Day: January 31st
- Extended Time Period: January 22nd – January 31st
- Number of selected CTs: 50
- Estimated population in selected CTs: 654
- Access Points: Coalition for Responsible Community Development, Watts Labor Community Action Committee, Southern California Health and Rehabilitation Program

SPA 7 – East

- Blitz Day: January 29th
- Extended Time Period: January 22nd – January 31st
- Number of selected CTs: 53
- Estimated population in selected CTs: 307
- Access Points: Whittier First Day, Kingdom Cause Bellflower, Penny Lane

SPA 8 – South Bay

- Blitz Day: January 30th
- Extended Time Period: January 22nd – January 31st
- Number of selected CTs: 48
- Estimated population in selected CTs: 401
- Access Points: Occupational Therapy Training Program, St. Margaret's Center

Appendix E – Overview of Data Analysis
