

## MAKESHIFT SHELTERS (MSS)

There were 4,786 makeshift shelters counted throughout the Los Angeles Continuum of Care on the night of the PIT count. Detailed surveys of unsheltered residents help determine/estimate:

A total of 7,226 people were sleeping in makeshift shelters during the Count.

Table MSS.1 presents, by SPA, total makeshift shelters (MSS) counted; share of MSS occupied by family households; share of MSS occupied by adult individual households; and the standard error of the share of MSS occupied by family households.

SPA	Total makeshift shelters (MSS) counted	Share of MSS occupied by family households	Share of MSS occupied by individual households	Standard error of the share of MSS occupied by family households
1	582	0.4%	99.6%	0.3%
2	614	0.4%	99.6%	0.3%
3	393	0.4%	99.6%	0.3%
4	1,822	0.4%	99.6%	0.3%
5	228	0.4%	99.6%	0.3%
6	635	0.4%	99.6%	0.3%
7	284	0.4%	99.6%	0.3%
8	228	0.4%	99.6%	0.3%

Table MSS.2 presents, by SPA, the average number of family persons per makeshift shelter (MSS), the standard error of the average family persons per MSS, the average number of individuals per MSS, and the standard error of the average individuals per MSS.

SPA	Average number of family persons per MSS	Standard error of average family persons per MSS	Average number of adult individuals per MSS	Standard error of average adult individuals per MSS
